RELEVANT EXPERIENCE

Freelance E-commerce Customer Support Specialist | International E-commerce Brands

- Support multiple international e-commerce businesses across home-improvement and consumer-product categories while adapting to each brand's policies, products, and communication style.
- Manage customer-service inboxes, prioritize backlogs, and maintain clear, empathetic responses in fast-moving remote environments.
- Own order-status questions, delivery exceptions, product concerns, complaints, returns, replacements, and warranty follow-ups from intake through resolution.
- Coordinate with internal stakeholders and production partners while protecting confidential operational details and keeping customers informed with accurate next steps.
- Develop and apply reusable templates, escalation paths, and case-handling standards to improve response consistency and turnaround.

Faculty Support Specialist / Onboarding Trainer / Quality Specialist | Concentrix

- Provide advanced technical and customer support for education technology products used by instructors and learners across multiple LMS environments.
- Troubleshoot course pairing, LTI 1.3 access, grade synchronization, assignment settings, account validation, instructor resources, and product-specific workflows.
- Investigate cases across systems, translate technical findings into clear guidance, and coordinate personalized follow-up until the issue is resolved.
- Facilitated onboarding and knowledge transfer for new team members, helping them understand products, workflows, and customer-support standards.
- Reviewed service quality, identified coaching opportunities, and provided actionable feedback; recognized for strong customer satisfaction, resolution results, and product knowledge.

Customer Service Specialist, Tier 1–2 | TaskUs

- Built substantial e-commerce customer-support experience covering order, product, account, delivery, return, and general service concerns.
- Managed customer complaints and escalations while maintaining a calm, professional, and solution-focused experience.
- Earned promotion to Tier 2 after consistently strong performance and product/process mastery; supported complex cases and peer onboarding.

Customer Service Associate | ResultsCX

- Handled inbound customer inquiries, explained products and services clearly, and delivered thoughtful solutions in a fast-paced contact-center environment.
- Achieved top-performer recognition despite entering the field without prior BPO experience.

EDUCATION

Bachelor of Science in Railway Engineering — First-year coursework

Polytechnic University of the Philippines
